Jean Haines BESTSELLING AUTHOR

Well known for her enthusiasm and passion for art, Jean Haines covers a wide range of subjects in a loose and interpretive style. In the 1990s she studied Chinese Brushwork in Hong Kong, which she now incorporates into her expressive watercolours. Light, colour and sections left to the viewers' imagination play a vital role in her paintings. In 1997 Jean moved to Dubai where she held workshops and courses and participated in many prestigious events at major galleries. Her work soon became collectible and she has since sold many pieces which are now in homes all over the world. Following a short period in both France and Belgium, Jean returned to the UK in 2006, and now regularly exhibits and hosts international watercolour workshops for artists from all over the world. She has won many awards for her outstanding work, most recently the SAA's Professional Artist of the Year, Experimental and Abstract Award.

The book covers all the materials and tools required and has a comprehensive techniques section that includes overlaying colours, colour blending and troubleshooting.

Experienced author Jeremy Ford takes you through three simple, step-by-step projects in a range of painting styles and encourage you to experiment and develop your own way of working with gouache. Creating Paintings with Character and Life

DAVE WHITE

Giovanni Civardi BESTSELLING AUTHOR

Giovanni Civardi was born in Milan in 1947. While training to become a sculptor, portrait artist and illustrator at the Free Life-Study School of the Accademia di Brera, he also studied medicine and surgery. For over a decade, he worked as an illustrator, producing commissions for newspapers, magazines and book covers. During frequent trips to France and Denmark, Civardi put on one-man exhibitions of this work and pursued his interest in studying the relationship between medical anatomy and the human form as depicted by the artist. His experience gained from teaching anatomy, life drawing and portraiture in schools and institutions over many years has led to the publication of numerous books in which Civardi's experiences are brought into focus.

The Field Guide to Drawing & Sketching Animals

SPRING 2019

TIM POND

There are some very good books written on life drawing, yet when it comes to drawing wildlife, illustrators and artists often revert to working solely from photographs, which can leave the artwork looking lifeless and flat, with an over-preoccupation with detail. In this inspirational book, artist Tim Pond shows you how to observe and draw animals in zoos, farms, wildlife parks and aquariums, teaching you some fascinating facts about the animals along the way and ultimately bringing you closer to nature.

Tim's book takes you on a journey of discovery that will enable you to develop the skills, techniques and knowledge you need to sketch a broad range of wildlife, including mammals, reptiles, birds, fish and insects. It will include quick, gestural sketches as well as linear and tonal studies, in a variety of media that includes pencil, pen and ink, and watercolour. There are numerous studies, including how to represent the different patterns of animals' coats, how to capture the plumage of an exotic bird in watercolour, and how to sketch a hippo's hooves, as well as guidance on tools, materials and basic techniques. The result is a treasure chest of fascinating facts, studies, sketches and annotated drawings that will not fail to ignite your enthusiasm for drawing animals from life, and allow you to experience the magic of creating a sketch filled with life and vitality.

Quilting on the Move

ALISTAIR MACDONALD

English paper piecing is a popular and easy method of creating handsewn patchwork designs. Fabric is cut and folded over a paper template and shapes are stitched together by hand, making it ideal for sewing when you're out and about, travelling, or sitting quietly at home.

Following in the style of the highly successful *Love to Sew* series, author Alistair Macdonald provides 20 fabulous projects, including a baby's playmat, a scarf, a scatter cushion, a hobby bag, a tea cosy, a tote bag and a make-up purse. All are handsewn using the English paper-piecing method. Templates for all the projects are included, and there are basic, step-by-step instructions on this classic technique at the beginning of the book.

Di van Niekerk BESTSELLING AUTHOR

An artistically inclined mother and a keen interest in all things beautiful got Di van Niekerk off to an early start as an embroiderer. Her love for this discipline soon became her livelihood and starting an embroidery business was just another natural progression for this talented crafter. She opened her first shop in the Natal Midlands in South Africa and when the family decided to uproot and move to Johannesburg, along went the business. After four years of running one of Johannesburg's most successful embroidery shops, the family's urge to settle in Cape Town became too strong to ignore. Di now runs two successful embroidery shops in Cape Town. The end product of her latest interest, hand painting her own range of silk and organza ribbons for embroidery, is marketed to retail outlets worldwide.

Hazel Blomkamp BESTSELLING AUTHOR

Hazel Blomkamp has dabbled with all the needlecrafts since childhood. When her children were babies she developed a passion for embroidery to break the tedium of life with toddlers, using it as her evening reward for having got through the day with her sanity intact. She has been designing for the past 18 years. Preferring to design projects which appear to be traditional, she pushes the boundaries by introducing other forms of needlecraft into traditional techniques, exploring further in everything that she does. Along with designing, she runs a busy website from home. She teaches at her home studio in Pietermaritzburg, KZN and travels throughout South Africa and to Australia teaching embroidery and fine beadwork. She is a regular contributor to South African and Australian embroidery magazines and is a columnist for South African *Stitches* magazine.

Moy Mackay BESTSELLING AUTHOR

Since graduating from the Glasgow School of Art in 1990 with a degree in Design specialising in printed textiles, Moy Mackay has gone on to develop an innovative felting style. Using merino fleece fibres in the same way that a painter uses brushstrokes, she then embellishes them with machine and hand embroidery. She has exhibited her work at numerous venues throughout the UK and also in the US, and she has built up a steadily increasing fan base. Moy works from Wasps Artist's Studios in Selkirk and runs The Moy Mackay Gallery in Peebles. Since her first book *Art in Felt & Stitch* was published in April 2012, Moy's work has gained worldwide exposure and she now teaches classes both at home and abroad. In 2013 she won Silver in the category of Textiles and Needlecraft, judged by Kaffe Fassett at the British Craft & Design Selected Awards.

The Art of Moy Mackay

An inspirational guide to painting with felted fibres & stitch

MOY MACKAY

The brand new, opulent book by bestselling author and renowned textile artist Moy Mackay.

From concentrating mainly on the felting techniques described in detail in her previous books (*Art in Felt & Stitch* and *Flowers in Felt & Stitch*), this latest title by the prolific and popular felt artist now shows you how to find inspiration for your own felt painting creations, helping you to develop your own original ideas. Delve into the catalogue of Moy's beautiful, colourful sketchbooks and photographs and learn about her own design process and influences, through which your own artistic abilities can be explored.

Moy takes you through every step of the felt-making process, including the materials and tools you need, the process itself (which is easier than you'd imagine), and how to put together four fabulous felt paintings of varying subjects – all of which Moy has devised to give you the basic knowledge for eventually designing your own felt creations. There is also guidance on stitching – both hand- and machine-stitching – as well as how to use colour and introduce texture in the form of different fibres and threads. There are numerous examples of Moy's work throughout the book, inspired by the dramatic scenery of the Scottish Borders where she lives and works, providing further inspiration for your own gorgeous felt paintings.

From inspiration and design to the finished vibrant picture, Moy's third book explores the development from initial thoughts through to the essential embellishments that add life and character to her work.

The Kew Book of Sugar Flowers

How to make beautiful floral cake decorations

CASSIE BROWN

FALL 2018

In *The Kew Book of Sugar Flowers*, sugarcraft specialist Cassie Brown teaches you how to craft stunning, authentic-looking flowers and foliage, inspired by Kew Gardens, using fondant/sugarpaste.

Learn how to create beautiful bouquets and stunning sprays, from the early stages of germinating your ideas – taking inspiration from nature and making moulds from real flowers and leaves – to creating floral cake decorations with an exotic or wild flower theme for a special occasion.

Through clear and concise step-by-step instructions, Cassie explains every facet of crafting sugar flowers, from preparing the fondant/sugarpaste and colouring it with gel paste, to wiring the flowers into an attractive and incredibly realistic bouquet. There is a veritable garden of delights to choose from, from ornate orchids to delicate daisies. The method for crafting each individual flower is demonstrated in stunning detail, beginning with an 'exploded flower' photograph that illustrates each of the individual components, and then working through the techniques and tricks that Cassie herself applies to create her stunning floral displays.

With a foreword by Eddie Spence M.B.E. – award-winning cake decorator – this is the perfect guide to help you take your cake decoration capabilities to the next level.
