The Paint Pad Artist **BESTSELLING SERIES**

The Paint Pad Artist series launches with two inspiring books by Grahame Booth and Julie King.

Whether a beginner or more experienced artist, you will be amazed at how quickly - with Grahame and Julie's guidance - you will acquire the skills needed to produce beautiful paintings. With the initial outlines for six stunning projects provided on watercolour paper, you can start creating your amazing works of art straight away.

The books begin with notes on how to use the pre-printed watercolour paper, and how to make copies of the outlines should you want to attempt the projects again.

Following this there is a short 'what you need' section, enabling you to gather together the paints, brushes and basic equipment required to start painting. You'll then learn some general techniques such as how to hold the brush, how to add water to your paint and how to mix colour, plus how to frame and display your finished work. The six stunning step-by-step projects build in difficulty as you work through the book, and new techniques are introduced.

The result? A complete watercolour course in just 96 pages.

- Six inspiring watercolours to paint, with step-by-step instructions, author's hints and tips, and new techniques introduced as you progress through the book
- Six sheets of watercolour paper are included, pre-printed with the initial outline drawing for each project.

Praise for *Watercolours Unleashed*:

"The tone in which the book is written actually feels like Jane is with you in a one-to-one tutorial, the language used is not over complicated or stuffy, which you can sometimes find with tutorials or books that explain a particular process or medium... It would make a great referral book to go back to from time to time, if you are suffering with a creative block or feel stifled with your own techniques or styles of painting." - Jackson's Art

Drawing Using Grids SERIES

From world-renowned artist Giovanni Civardi, this highly practical series uses the traditional grid technique to make the drawing process both simple and accessible.

Starting from a photograph, Civardi shows you how to create an accurate pencil sketch of the subject by overlaying a grid and transferring the image one square at a time. The sketch is then rendered in easy stages to create a finished drawing. Even the most complex of subjects can be broken down into easy steps using this method, and by studying Civardi's step-by-step exercises the reader will very soon be producing highly detailed drawings based on photographs of their own.

The Field Guide to Drawing & Sketching Animals

TIM POND

Artist Tim Pond's lively and engaging book fuses science with art, providing you with the skills, techniques and knowledge you need to create sketches of animals filled with life and movement.

Tim shows you how to observe and draw animals in zoos, farms, wildlife parks and aquariums, teaching you some fascinating facts about the animals along the way and ultimately bringing you closer to nature.

One of the challenges with sketching wildlife is that animals are constantly moving. However, having some basic understanding of biology can help you capture the form, movement and ultimately the spirit of the animal in question. This combination of scientific knowledge and practical guidance is key to creating lively drawings and Tim's ability to convey this in an accessible and engaging way makes this a unique and inspiring guide.

- Covers a broad range of wildlife including mammals, reptiles, birds, fish and insects
- Includes quick, gestural sketches as well as linear and tonal studies, in a variety of media – pencil, pen and ink and watercolour
- Suitable for artists of all abilities, as well as professional illustrators and animators
- Tim Pond's considerable expertise in observing and capturing the natural world in his drawings is reflected in every page of this book. Artists will quickly improve their field and studio work through his instruction.

Foreword by evolutionary biologist and BBC presenter Dr. Ben Garrod, and preface by Dominic Jermy, ZSL Director General.

"Not only do I think this is a good book on a technical level, I actually like it, too. And there's no point in having a good book that you just don't bond with. I guarantee that not only will reading this book help you become a better artist but shall give you a deeper appreciation for the wildlife around you. Enjoy."

– Taken from foreword by Dr Ben Garrod

Quilting on the Move

with English paper piecing

ALISTAIR MACDONALD

English Paper Piecing (EPP) is a popular and easy method of creating beautiful, hand-sewn patchwork designs. The fabric is cut and folded over a paper template and the resulting shapes are stitched together by hand, making it ideal for sewing whether you're on the move, or at home.

Successful and established author Alistair Macdonald provides 18 fabulous projects, including a lovely baby's play mat, a stylish gentleman's scarf, a useful hobby bag, a tea cosy, a gorgeous tote bag and a make-up purse. All the patchwork is done by hand sewing, using EPP in fresh, bright cottons and with clear, step-by-step instructions and beautiful photographs. There is some machine sewing for putting projects together, but you can hand sew if you prefer.

Actual size templates for every project are included.

- English paper piecing is a popular and portable craft
- Suitable for quilters of all abilities
- Starts by explaining basic quilting techniques

"It's inspirational. It's informative. It's beautiful! For most of us who will never see a collection of embroideries like these up close and personal, these lovely books are the best way to experience them and learn about them. We can take what we learn and apply it to our own needlework pursuits. Or we can just enjoy the beauty of the pieces and appreciate the history behind them.

It's a great book for your reference library ... and even for your coffee table!" – Mary Corbet, Needle 'n Thread

Hazel Blomkamp

BESTSELLING AUTHOR

About the Author

Hazel Blomkamp has dabbled with all the needlecrafts since childhood. When her children were babies she developed a passion for embroidery to break the tedium of life with toddlers, using it as her evening reward for having got through the day with her sanity intact. Her children are now young adults and she still embroiders in front of the television every night.

She has been designing for the past 18 years. Preferring to design projects which appear to be traditional, she pushes the boundaries by introducing other forms of needlecraft into traditional techniques, exploring further in everything that she does. Along with designing, she runs a busy website from home.

She teaches at her home studio, in Pietermaritzburg, KwaZulu-Natal, and travels throughout South Africa and Australia teaching embroidery and fine beadwork. She is a regular contributor to South African and Australian embroidery magazines and is a columnist for South African *Stitches* magazine.

Mabel Bunny & Co.

15 loveable animals to crochet using chunky yarn

CLAIRE GELDER

Who could resist these loveable toys and their babies? De-stress by snuggling up with Mabel Bunny and her friends – oversized crocheted toys, perfect for giant cuddles and little hands. Not just for children, the soft, chunky yarn and floppy limbs will appeal to all, so make them for yourself or give as gifts (if you can bear to part with them). Mabel makes a great reading companion and at over 60cm tall from head to paws, the animals sit comfortably on a shelf or at the end of a bed.

As well as fifteen different animals to crochet and love, including a dragon, a polar bear, an octopus and a pig, you can also make mini versions, which are 30–40cm tall. The projects are pitched at beginners to improvers and are suitable for someone who has mastered the basics of crochet. So be inspired, choose a pattern to start and be prepared to fall in love with this collection of adorable toys.

- Instructions are included to make both the full-and mini-size versions of Mabel Bunny and her friends
- Crafters need just basic crochet skills to make these chunky yarn loveable toys
- Author Claire Gelder successfully secured investment from two Dragons from BBC's *Dragons Den*.

About the Author

Claire Gelder loves all things handmade, handwoven and handcrafted. She has been crafting for relaxation and fun for over twenty years.

In 2015, Claire left her career as an NHS Director to launch her new business, Wool Couture, which specialises in knitting, crocheting, weaving and macrame. She quickly got her DIY craft kits on the shelves of retail giant John Lewis and, in 2017, secured two *Dragons Den* investors to help her pass on her passion of crafting to the next generation. Adding a modern twist to age-old pastimes knitting and crochet, Claire uses giant, chunky yarn and oversized knitting needles made in her own factory. Claire lives in Wakefield, UK.

Papercut Landscapes

SARAH KING

Papercutting is a perfect craft for beginners, as you can achieve amazing results with the most basic of materials – a pencil, eraser, craft knife or scalpel, a piece of paper and a cutting surface.

Sarah King's art encapsulates the beauty of the English countryside, particularly the towns and villages around the Kent coast where she lives. Her use of fresh, vibrant colours and delightful compositions evoke memories of happy times, and expert papercrafters as well as those new to papercutting will find the charming, naïve style of Sarah's work irresistible.

Sarah's down-to-earth approach to her art makes it enjoyable and accessible to all. In the book she includes sections on choosing your materials and colours, and there is step-by-step guidance through all the basic techniques you need before embarking on the twelve gorgeous projects on the seaside, town life, the wilderness, and more.

- Author is a member of the Association of British Naïve Artists and the Guild of American Papercutters
- Appealing, achievable style
- Simple techniques for impressive effects
- Full-size templates included.
