# THE ART OF DRAWING

INFORMATION

## Drawing Light & Shade

Giovanni Civardi shares his great expertise in drawing light and shade, beginning with the basics of drawing simple 3D shapes. There are sections on shadows and cast shadows, simplifying tone, methods of shading, form and relief, composition, the perspective of shadows and many more. We also learn a little bit about how light and shade have been used throughout the history of art. Finally the artist shows through his own superb drawings how the techniques and principles learned can be put into practice.
